—MY SALES OF— UNDERWEAR —ALL— THIS WEEK, —AT PRICES— UNDERWEAR —FOR— LADIES' and GENTLEMEN'S —AT— H. B. FOX.

During the last two weeks have been heavy. Nevertheless, I have yet too large a stock for the season, and in order to reduce the quantity still further I have concluded to offer greater inducements than heretofore. Less than they can be landed in the City, it will pay to buy. Even if you do not need them for immediate use

DR. M. HILTON WILLIAMS,

GRADUATE OF VICTORIA COLLEGE, Toronto, Ontario, Canada (1867); member of the College of Physicians and Surgeons of Ontario, Canada; for some years proprietor of the Ontario Pulmonary Institute at Toronto, and for fourteen years proprietor of the Detroit Throat and Lung Institute, at Detroit, Michigan, and which is the oldest institute of the kind in America.

OFFICE, 275 NORTH MAIN STREET, (next the Diamond House) LOS ANGELES, CAL.

CONSUMPTION.

The early symptoms of this disease are a sense of weakness, little exertion, indisposition to remain passive and idle; a peculiar sensitiveness of the effects of cold, and a shortness of breath upon moving quickly or ascending a hill or stairs, a slight hacking cough with or without expectoration, flying pains throughout the chest or back or under the shoulder-blades; these symptoms are worse towards or during the night; slight fever in the afternoon, cold feet and hands, and in many cases a bluish tinge of the lips and roots of the finger nails. The more advanced symptoms are wasting of flesh, diarrhœa, chills and fever, night sweats, expectoration of yellow pus from the ulcers or cavities in the lungs, with or without a depression of the chest, increasing weakness, and at last a closing up of the air-passages of the lungs, causing strangulation or suffocation of the patient for want of power to expectorate the mucus from the lungs. Heretofore the treatment of consumption has been very unsatisfactory, both to physicians and their patients, but luckily, since the discovery of the Aeran system of practice, a few years ago, thousands of cases have been completely cured, where, had it not been for this system of practice, all failure to combat the evils of the disease would have continued up to the present time. The system of Medicated Inhalation is the only means by which these diseases can be cured. By this means we are enabled to dissolve the hardened mucus in the lungs, ease the cough, facilitate expectoration, contract and heal ulcers and cavities after all other means by ordinary methods is passed. CONSULTATION FREE. Those who desire to consult with me in regard to their case will be personally for an examination, but if impossible to do so, may write for a list of Questions and Medical Statistic. Address M. HILTON WILLIAMS, M.D., 275 North Main street, Los Angeles, Cal. Office hours from 10 a. m. to 4 p. m.; Sundays from 3 to 4 p. m. Professional visits before and after office hours. no19 d&w

Cahuenga Valley Lands.

4 1-2 MILES FROM THE COURTHOUSE.

All persons seeking homes are invited to examine the delightful situation, and advantages of the magnificent land which we are offering

IN SMALL TRACTS

Of 5, 10, 15, 20 and 40 acres, at the very reasonable price of

$125 PER ACRE,

Equal in nearly all respects to the land for which, in many places, we are compelled to ask $200 to $ 50 per acre.

This property has the great advantage of being

FREE FROM FROSTS, STORMS OR FOGS,

And there is not an inch of waste land on the tract, which is a FINE LEVEL FLOOR. Water is within ¼ mile, and the entire property lies on the GREAT THOROUGHFARE, between the city and the whole of the fertile Cahuenga Valley.

When watermelons grow here to 168 pounds and pumpkins to 198 pounds we need say no more.

Apples, peaches, pears, etc., grow to the utmost perfection.

Water is found in unlimited quantities near the surface, 12 to 30 feet.

Let us show you this splendid property before you buy elsewhere.

NEWS IN BRIEF.

During a ball at the town of Witkowitz, in Bohemia, a dynamite cartridge exploded and several persons were injured.

The King of Corea has addressed a letter of thanks to President Arthur for courtesies shown the Corean embassy in the United States.

Ex-Mayor Edson of New York was yesterday sent to jail for fifteen days for contempt of court for disobeying an injunction against nominating a Corporation Counsel and Commissioner of Public Works.

THE Oregon Legislature is struggling unsuccessfully with the Senatorial question. No election yet.

MORE painful and discreditable revelations concerning the troubles and disagreements of the men of the Greely Arctic expedition are made public today. On such trying expeditions, however, where every human quality, almost, is put to the severest test, such quarrels are extremely liable to occur. Men are very human.

SOME idea of the "republican simplicity" which will characterize the inaugural ball may be gained from our Washington telegrams. Decorations costing $50,000; balconies hung with velvet spangled with gold; pillars hung with silk flags; doors draped with crimson silk curtains; and the central figure standing on a dais during the ceremonies of the hall, after "the custom of Washington and Jefferson," are incidents of this "republican simplicity." The new pension building will hold the enormous number of 59,000 people, it is said.

THE St. Helena Times takes the following correct view of the O'Donovan Rossa case: "Mrs. Dudley's attempt to assassinate O'Donovan Rossa, while not at all justifiable, is simply an attempt to make that infamous fiend who audaciously claims to represent Ireland, the recipient of a dose of his own medicine. No respectable native of the Emerald Isle gloats over the dastardly work of dynamite fiends who stealthily try to kill innocent women and children. Such beasts as Rossa only do that." It would be the height of injustice to assume that Irishmen generally—even Irishmen who are hearty haters of England—sympathise with the methods of O'Dynamite Rossa. The Irish cause can never be, and should never be forwarded by such tactics.

THERE is no disputing the fact that the Stockton-Convention Democrats outnumber the Read-outs, otherwise the Field faction, very largely in California; and it is perfectly natural for the majority faction to "kick like steers," to employ a frontier phrase, when an attempt is made by the minority faction to carry off the fat Federal patronage and pretty plums, to the exclusion of the masses—the yeomanry—the honest, horny-handed anti-monopolists, who have refused to fall down, as they claim, before the Golden Calf with a locomotive for a head. Hence we predict a perfectly beautiful fight all over the State when the attempt is made, as it will be by the Field emissaries, to "run things" on the Slope. And nowhere will the fight rage more beautifully than right here in Los Angeles. The Republicans will watch it with delighted interest.

The Khartoum Disaster.

The fate of General Gordon and his men is no longer in doubt. The news comes this morning that they are dead —butchered by the fanatical followers of the Mohammed Ahmed, the False Prophet. Gordon, it appears, was assassinated as he was emerging from the Government House in Khartoum, at the moment when the Mahdi's troops were entering the gates of the city, which had been opened to them through the treachery of Gordon's Egyptian officers.

The European troops, their wives and children became the objects of the fanatical fury of the victorious Moslems, and were cut to pieces with horrible barbarity. It was bloody work.

The Mahdi has occupied Khartoum, fortified it still further, and evidently means to make its recapture extremely difficult, if not impossible, unless it be by a force treble that of any English army yet dispatched to the "dark Soudan."

Wolseley has set out from Korti, moving towards Gubat, on the line chosen for the Nile expedition, but it must be weeks, perhaps months, before he can reach Khartoum, especially as the approach by the river must be deferred till the September rise of the Nile.

The full extent of the British disaster is now known, and England is able to comprehend, if never before, what she has to contend with in fighting the warlike and savage nomads of the Egyptian desert. That she will make a tremendous effort to recover lost ground cannot be doubted by anybody who knows what English pluck and endurance are. And the "Prophet false" proves the Prophet true,

And his word rolls on with a mighty boom
From the Nile of White to the Nile of Blue,
From sun-kissed Sinkat to far Khartoum.

FORTY-EIGHTH CONGRESS.

Senate.

WASHINGTON, Feb. 10.—In the Senate, after a long debate, the pension appropriation bill was passed substantially as it came from the Senate Committee, all legislative measures found on the bill as it came from the House, relating to the compensation of pension attorneys, etc., being struck out, the Senate having already passed a special bill containing these provisions. The bill now goes to the House for concurrence or non-concurrence in the Senate's action, striking out the provisions referred to.

The Senate then took up and resumed consideration of the House bill repealing the pre-emption and timber culture laws. After some debate Mr. Dolph proposed an amendment providing that all entries heretofore made under the pre-emption laws of which final proof and payment have been made, to which there are no adverse claims, and which have been sold to innocent purchasers, shall be confirmed and patented, upon the presentation of satisfactory proof to the proper department office.

Mr. Sherman thought this required a careful consideration. It might operate to deprive the United States of a right to recover lands originally obtained by fraud.

Without decision on the amendment, the Senate adjourned. Before adjournment, Mr. Butler presented the credentials of the re-elected Senator Hampton.

CALIFORNIA LEGISLATURE.

Senate.

SACRAMENTO, Feb. 10.—In the Senate the special order, being the bill appropriating $10,000 to enable the Commissioner for the World's Fair to make a further exhibition of California products at New Orleans, was taken up and passed.

The substitute text book bill reported by the Committee on Education was not considered.

Mr. Days offered a substitute which appropriates $20,000 for compiling the books and $150,000 for fitting up the State printing office where the work is to be done. Recess.

On re-assembling, Mr. Taylor, of the Committee on Irrigation, gave notice of a rule setting apart each day from 2 to 3 o'clock for a meeting of the Committee of the Whole to consider bills reported from the Committee on Irrigation.

Associated Press Dispatches to The Times.

LONDON, Feb. 10.—Wolseley telegraphs further particulars of Beresford's rescue of Col. Wilson: "When the steamer had gone down the river about three miles, a battery of the enemy on the left bank opened fire upon it. The steamer returned the fire, which was kept up while the steamer anchored for repairs. Meanwhile Col. Wilson, with a small party, took four guns and landed on the right bank. The party marched down the river till directly opposite the battery, put their guns in position, and opened fire. Much assistance was thus rendered Lord Charles in keeping the fire of the enemy down, and at sunset Wilson and party marched on three miles further down the river and halted for the night. They were there joined by Lord Charles on the following morning. The steamer meanwhile had been engaged with a rebel battery, but succeeded in passing it without serious harm. Col. Wilson and party were again taken on board, and the steamer proceeded to Gubat without further difficulty. During the passage from the island to Gubat, one man was killed and seven injured." Wolseley concludes his dispatch with these words: "I cannot speak too highly of the pluck of Lord Charles Beresford and party. Col. Wilson's men likewise behaved admirably and with the usual determination of Englishmen."

WILSON JOINS WOLSELEY.

LONDON, Feb. 10.—A dispatch from Korti, dated February 9th, says that Beresford returned in safety to Gubat, bringing with him Col. Wilson and party, who were stranded on the island some distance up the Nile, while returning from Khartoum. Some difficulty was experienced in getting away the stranded party. The rebels on the river banks kept up an incessant firing, and shortly after the party embarked a bullet from a rebel rifle pierced the boiler of the steamer, necessitating anchoring under fire to make repairs. The British dre, however, took effect, and the rebels were repulsed. Immediately after reaching Gubat, Colonel Wilson started for Korti, where he has now arrived to report in person to Lord Wolseley the details of his reconnoissance at Khartoum.

LONDON, Feb. 10.—Gen. Newdegate will command the expedition to Suakim. Col. Greaves will be chief of staff. The Suakim campaign will open, it is calculated, on the eighth of March.

ITALIAN CO-OPERATION.

ROME, Feb. 10.—The Italian expeditionary force, recently landed at Wassawah, has been ordered to aid the English operations in the Soudan by marching into the interior and relieving the garrisons at Kassola and Senhi. This movement, if successfully accomplished, will open a line of communication from the coast to Khartoum, parallel with the route from Suakim to Berber.

ROME, Feb. 10.—The government has chartered six more steamers to use in conveying troops to Egypt, to be ready Saturday.

LONDON, Feb. 10.—The Telegraph's Vienna correspondent says it is understood that Italy has consented to occupy Cairo, Alexandria, Suez and a portion of

ENLARGED SHEET.

WEDNESDAY, FEBRUARY 11, 1885.

THE Stockton Mail is possessed of the idea that in the matter of Federal appointments for California, the new President, when he finds himself placed between the opposing "hauls" of the Field faction on one side and the Stockton Convention faction, represented by Congressman Henley, on the other, will not precisely "take to the woods," but will seek a solution of the Gordian knot in the Republican camp. In other words, he will go for advice to the California Senators, both Republicans, in preference to the single Democratic Representative (Henley.) This would be the neat and sensible course to pursue. If the coming President will just lean upon Miller and Stanford, he will be in no danger of falling down. In fact, if he will wisely do that, he will bring down upon his official head less of wrath and reproach than will descend upon it in case he follows the advice of either Judge Field or the Stockton Convention leaders. For do not these Democratic brethren love each other like enraged cats and dogs, and are their political hands not itching to seize each other by the windpipe and execute ghastly cavities therein? "Yea, verily," as the r. y. j. would put it originally.

LIEUTENANT STONEY, who is to head the forthcoming expedition to explore the Yukon river, Alaska, is to have placed at his disposal a hot-footed little steamer to be called the "Ripple-Kicker," now building at San Francisco. The plan of proceeding now outlined is a more sensible one than that first announced. When rapids or other obstructions prevent further progress the steamer will be laid up alongside the bank, in charge of a boat-keeper, while the party pushes forward on foot. All preparations have been made to winter on the banks of the river, if necessary, and prosecute the work of exploration on sledges. Some of the outfit provided for the Greely relief expedition may be turned over to Stoney, to be used in case his party has to winter in Alaska. The party will be a small one, composed almost entirely of officers selected for this service.

THE prospect of Wolseley reaching Khartoum is apparently farther off than ever, since it is given out that he cannot advance up the Nile beyond Berber, where he will have to wait for the September rise to carry his transports over the shallows. Meantime the Mahdi will have time and opportunity to strengthen his position at Khartoum, so that the work of driving him out and recapturing the city will be rendered doubly difficult.

SAMUEL WILSON, of San Francisco, is the possessor of a boom. It is labeled "Secretary of the Interior," and is said to be growing. Wilson is a lawyer of eminence, and is credited with a deep knowledge of his profession and a close acquaintance with Spanish and Mexican land titles—an acquisition which ought to serve him and the country a good purpose in case he is given the portfolio of the Interior.

THE New Orleans Fair managers are a modest lot. They only ask Congress to make up a deficiency of $360,000 which they have piled up, after spending the $1,000,000 originally voted to help the show along. If Louisiana and the Cotton States had any spunk and enterprise they would raise the amount required, without calling on Uncle Sam, or let the Exposition expose its poverty and rags.

GENERAL FRANCIS C. BARLOW is Tilden's candidate for Secretary of War in Cleveland's Cabinet. He was a Republican up to a few years ago—a fact which may be laid up against him by the Bourbons of the Southern wing of the Democratic party. We predict that Cleveland will select his Cabinet officers from among the straight-outs; and certainly all Republicans ought to wish it to be so.

CLEVELAND is credited with holding views opposed to the further coinage of silver dollars. Is it possible that he belongs to that "conspiracy" which we have been told by a local silver Soloman exists in the East, with John Shermon at its head? Cleveland a conspirator and a Democrat!—a Democratic President, at that? What are we coming to? "Whither are we drifting?"

IT IS gall and wormwood to the "reformers" of the Stockton Convention to know that Cleveland has had a confidential and highly satisfactory interview with Judge Stephen J. Field.—[San Jose Times-Mercury.

You are pre-eminently and perpendicularly right, brother, as a lot of anti-Field Democrats in Los Angeles could testify if put on the stand.

CLEVELAND, Tilden and Dan Manning, with their united legs stretched under the Sage's mahogany at Greystone, was a picture calculated to make the other fellows weep—the other Democrats who had no hand in the connubiating then and there performed.

THE English cabinet, after looking wise at the matter for several days, has at last concluded that the defeat of El Mahdi "is necessary to vindicate England." The False Prophet doubtless considers that the defeat of the British is necessary to vindicate him.

THE Republican League of California hold a meeting to-night in San Francisco in honor of Senator Leland Stanford, to which a large number of Republicans throughout the State have been invited.

SAN LUIS OBISPO is on the up grade and growing rapidly. The subdivision of large land grants is having the effect of stimulating the growth and prosperity of the county and its chief town.

GENERAL GRANT'S great wish is said to be that he may be placed on the retired list of the army, simply as an act of justice. In that wish millions of patriotic Americans sympathize.

CLUB LIFE.

The Opportunities it Gives for Woman's Work.

THE WOMAN'S CLUB OF LOS ANGELES.

Address Before it by Mrs. Caroline M. Severance, President—Teaching by Precept and Example.

The following address was given at the formal opening of the Woman's Club of Los Angeles last Saturday week, by its President, Mrs. C. M. Severance, when about thirty of its forty members were present:

Dear Ladies—My many engagements of the past week have hindered my giving you anything *worthy* of you, and of the time which you give me from your own busy lives. But I *must* tell you *how much* your faith in me has gratified and strengthened me! How sincerely I hope that it may *not* prove in *any degree* misplaced! And I must warn you that the small ability for the work of a position like this, for which I once had credit, has, of course, lessened with the years of my down-hill course. And I must beg you to be lenient to my shortcomings, *until* we can persuade some one of the many more gifted and capable souls of our number to stand in my stead.

Meantime I shall "rejoice and be exceeding glad" of the relationship which brings me so near to each one of you, dear ladies; remembering the delightful companionship and cheer, and increased faith in our sex, which have come to me from such relations in the past—to some of you, among the most pleasing and helpful of these. For I count it no small gain upon the ordinary intercourse of women, that we come here simply as women, hindered by no limitations of circle or clique, or creed, or fashion. But aiming to put ourselves abreast of, and in line with, all that is being done by women for women, and through women, in all the departments of life and labor, of duty and of development. Not committed, *as a club*, to any special movement or effort, but sympathetic with and hospitable to them all—not willing only, *but anxious* to understand their basis and their aims, to have the best statements we can secure of them, and to discuss them frankly and impartially. That so, not only we, but their movers, may be helped by our kindly and honest criticism. Perhaps I am putting one-half of our double purpose as a club at the front, where many of you would place the more strictly social or the literary one there; but I presume that we shall find in this, as in most such clubs as ours, three classes of members—those who long for active work, seeing the work which needs doing for and by women; those who wish for the help of regular study along some one line; and those who wish only for the social rest and help of meeting each other in this regular and informal way. Our womens' clubs, as I know them, provide for one, or for all, these various desires and needs. And in my mind the most nearly ideal club is that which provides for all those at once by its various committees with their varying topics, and by allowing those who are overworked already, or who for some reason do not care to take an active share in the work or study of the club, to make its necessary, appreciative and critical audience. A club upon this basis does not draft its members into any line of work. It calls only for volunteers, and its officers and Executive Board should be wise and brave, and so single-eyed to the best interests of all as to assign these to the fit positions only, remembering that experience in such positions is *not* the only qualification. That comes only by work, of course. But that where taste and capacity for the special work exist, it becomes the duty of those in authority to give the opportunity—in the interest of all. You can see, then, dear ladies, that in such a club each of these classes needs and supplements the others. The busiest bee of our working force has no right to say nor reason for saying: "I have no need of thee!" to the most idle of our members. Indeed, such judgment and assumption are, as a rule, sadly misplaced when applied to the so-called drones of society in general. In the larger and truer view, which includes the home and its varying social needs and relations, these may not be drones or shirks in any just sense, but the bearers of sweetness and light to many households and circles, and so be to the eyes of the All-seeing and of loving kindred their "own excuse for being," as Emerson has so finely said of beauty. The outcome of club life, as I have known it among women, has been the bringing of its members not only into a cordial fellowship with each other, into a tolerance of the various aims and "hobbies," so-called, of each, but into an earnest desire, also, to share the study or service which they have found so worthy and so noble in the hands of their fellows.

The same also of a full and fair understanding of each other's character and aims, and the contagion of a noble social magnetism are immense educational forces; more pursuasive often than all set, direct and formal teachings of the duty of toleration and charity.

So, then, dear ladies, I commend to you, from a long and a happy experience, the club life which opens before us. It will be, of course, just what you choose to make it. I will not venture, in my enthusiastic faith in its great possibilities, to give what my dear friend Mrs. Julia Ward Howe calls "a *report* of the future!" Each month will be sufficient unto itself as it passes, no doubt, and will have no need of elaborate and eulogistic prophecy. If we fill each club day worthily it will be its own best warrant and testimony. We will come to wonder how we have been able to get on without this helpful life, which has been made to mean and to bring so much more to us than the ordinary society life which it replaces—so vapid, so fragmentary, so much a mockery as that is of all true relationship and helpfulness.

And yet that is largely the creation of women, you will say. Yes; but not of the matured thought, the wisest experience of the sex. Do not those whom they meet in what is, by courtesy, still called "society" at its high fetes and dismal pleasuring—like the augurs of ancient Rome—laugh in each others, faces over the travesty of what is highest and noblest which the people, even people of brains, have accepted at their hands? A sad laugh it is, if not a tearful one—like Mrs. Howe's arraignment in her lecture entitled "Is Polite Society Polite?"—and may it not be one of our duties as a club, dear ladies, to show a more excellent way?

I hope I have been able to answer, somewhat, the questions which will be asked of our purpose and our work. The very titles of the committees would seem to do it of themselves, except that many persons will interpret the "Work Committee" to mean that its members will be put at special work, instead of the report and discussion of what is being done, and the suggestion of such as *should be* done for, and by women. And so of the Educational. Of the Art and Literature Committees, the meaning is more obvious. In these exercises may be original essays, and the results of study given to the full club on committee day, as the reading of the best selected matter bearing on the topics selected by the committees.

I might, had I time, tell you of the long and lively discussions over the naming of our first New England venture of this sort, which resulted in the choice of "Chit" as its title, from the fact that all other titles had already been appropriated and become hackneyed. This was to be in reality what gentlemen's clubs had been to them, but minus their serious faults, their extravagance, late hours and dissipations, and should thus suggest to them a more excellent way. It was surely a magnanimous meeting of the case on the part of the women who had known a club thus far only as a synonym for lonely evenings and sad misgivings. But fine women are always magnanimous, and so we became a club—the N. E. Women's Club—as long ago as 1868, and still exist as one which has increased its borders until its spacious parlors in the historic home of the Quincys of noble fame are filled to overflowing at its weekly meetings, and its annual meeting for hearing reports of its committee work is held in a large hall outside, to accommodate the friends of members and strangers in town for anniversary week in May. I might tell you of the delightful sympathy and help in our initiative work of Boston's wisest and best, of noble Wendall Phillips, and gracious, benignant Waldo Emerson, and Bronson Alcott, Louisa's father, by whose sympathy its thought was first warmed and welcomed; of sturdy Theo. Parker and of witty Doctor Holmes, and Wentworth Higginson, the woman's knight, par excellence, of this generation, in our later committee work; in which, also, we had often Mr. Emerson's first draft of a poem or paper, before elsewhere given to the public. Ah, those are delightful reminiscences! But I am warned that this is a temptation of old age, and I forbear. But this club of ours is to be a worthy grandchild of the dear old club. So I commit its work to you, dear younger and more capable women, in full faith and with the hearty wish that it will be made so by you, and that its twenty years of life may be as rich in the retrospect.

The future meetings of the club will take place on Saturday of each week, at 2:30 in Knights of Pythias Hall, 24 Spring street, under the direction of its different committees of work—Education, Art and Literature. The meetings of the last named committee will fall on the evening of the fourth Saturday of each month, when each member of the club will be privileged to invite one friend, either gentleman or lady. All ladies interested in the ideas of the club are eligible by having their names presented by a member and acted upon by the Board at its monthly meetings.

Stretching Shoes with Beans.

From the Boston Journal.]

A Florida youth who bought a pair of shoes without trying them on, found on reaching home, that they were just an eighth of an inch too small all around. He thought, however, that he would enlarge them sufficiently by the "bean" process, so he filled each shoe to the top with large white beans—the variety that swell nearly double their size—gave them all the water they would hold, and left them over night to the mercy of the beans. In the morning he found that they had increased in size from No. 5 to apparently No. 8, and that the uppers had raised up on one side, exposing a huge crevasse and allowing the beans to escape for several feet around. The next time he will pare down his feet.

A Paradise for Homes!

An opportunity not equaled in Southern California to secure ten or more acres of the choicest land in Los Angeles county, with water right, is now offered to the public at prices, to those desiring to improve, fully forty per cent. lower than land similarly located.

THE PHILLIPS TRACT,

Of two thousand acres, all the finest sandy loam soil. Climate unsurpassed and location specially adapted to the orange and lemon; also elegant for vineyards. The character of the soil is such that all kinds of deciduous fruits and vines grow luxuriantly without irrigation. This fine body of land must be seen to be appreciated. It is located

Five Miles from Puente Station,

On the Southern Pacific Railroad, and eight miles west of Pomona, in a lovely, healthful valley, sheltered by the lofty Sierra Madres on the north, gently sloping south and west, and entirely free from fogs and frosts. This fine body of land has recently been subdivided by the owner and placed on the market by the undersigned in

LOTS OF TEN ACRES EACH,

at prices ranging from sixty-five to eighty dollars per acre, including ten shares of water stock with each ten acres. The terms will be made reasonable to parties purchasing and improving. There has already been twenty ten-acre lots sold. There has also been

A Town Located on the Land,

Named "COVINA," and quite a number of lots already sold. The price for lots, 60x175, at present being fifty dollars. A good school has been established on the tract. Parties desiring to see this land can be provided with conveyance from Puente Station. Broad avenues are laid out through the tract. This will undoubtedly become one of the most attractive places for homes to be found. In point of climate or soil it has no superior. For maps, prices, and full particulars, call on or address

Found on Boyle Heights.

In Los Angeles city, a place where ladies and gentlemen can go out driving during this rainy weather without danger of getting stuck in the mud; a place where those in search of healthy locations for homes may select their locations at once, without having to wait six months to do so; a place where the altitude is sufficient to bar all malarial diseases, and where a beat will not be required to get to and from the street cars during the rainy season; a place where the drainage is excellent, and where one can have a splendid view of the surrounding country, enjoy the beautiful sunshine and breathe the pure air direct from the ocean; a place where residence lots may be had at this time at a very low figure, but where, in a few years from now, for the reasons mentioned above, they will command a much higher price than lots in any other part of the city the same distance out.

All persons in search of desirable locations for homes at reasonable prices, and who desire to locate in a good neighborhood where the improvements so far are first-class, will find it to their interest to thoroughly examine the residence property on the west side of Soto street, between Aliso avenue and Brooklin street, known as the "Breed tract." The Boyle Heights line of street cars run by the tract every half hour. Carriages will not be in waiting to convey parties over the tract; neither will there be a free lunch spread for them, but the streets will be found dry, the atmosphere pure, and the view from the hill such as ought to repay anyone for their trouble, whether they purchase a lot or not. The owner of these lots proposes to sell them on their merits alone. He, no shrewd will be presented to purchasers. For further information inquire at the house on the corner of Soto street and Aliso avenue. ja13 1m

MUNICIPAL MATTERS.

A Proposition to Increase the Fire Department.

REPORTS OF SUNDRY CITY OFFICERS.

Petitions on Divers Subjects—Work of the Committees—Other Matters Coming Before the City Fathers.

There was a regular meeting of the City Council yesterday.

SUNDRY REPORTS.

The City Auditor submitted his weekly report of the several funds in the city treasury.

The City Auditor reported recommending the passage of an ordinance requiring the City Treasurer to advertise for proposals to redeem Irrigation Improvement bonds of 1884. So ordered.

The Clerk of the Council reported on the issuance of licenses for the month of January as follows: Licenses issued to the City Tax Collector to collect, 1040, amounting to $4669; returned uncollected, $426; balance collected, $4243. Referred to the Finance Committee.

The Superintendent of Streets reported the pay-roll for the week for work done in his department, amounting to $210.

The Superintendent of Streets reported notice received from the contractors of completion of the grading and improvement of Montreal street, between Bunker Hill avenue and Canal and Reservoir streets. Ordered published.

The Zanjero submitted his weekly pay-roll, amounting to $21.25. Referred to Finance Committee.

The City Treasurer presented his report for the month of January. Referred to Finance Committee.

The City Treasurer also gave notice that no claims, or liens of any kind, have been filed against College street improvement. Referred to Finance Committee.

The Chief of Police reported a notification to property owners on Downey avenue not to cut down pepper trees; also that the matter of hay wagons on Los Angeles street has been regulated. Filed.

HEALTH OFFICER'S REPORT.

Health Officer J. S. Baker submitted his report for January: Births—Males, 29; females, 31; total, 60. Deaths—From consumption, 19; cholera infantum, 2; croup, 2; typhoid fever, 2; cerebro-spinal meningitis, 2; alcoholism, 4; gun-shot wounds, 1; pneumonia, 2; catarrhal fever, 2; diabetes, 1; shock from surgical operation, 1; old age, 1; cystitis, 1; peritonitis, 1; cyanopathy, 1; premature births, 2; other causes, 7; total, 52. Filed.

The Board of Public Works reported as follows: On the protest of E. T. McGinnis and others against opening Sixth street recommending that no further proceedings be had in the matter. On the petition of J. Bixby a recommendation that the City Surveyor be requested to propose a grade for Flower street from Court-House street to Second street. On the petition of A. Polsen to abate nuisance on Clay street, that said nuisance has been abated. On the petition of P. M. Scott, a recommendation that petitioners be allowed to fence up the road at their own expense. Recommending that the Superintendent of Streets furnish lumber to make steps on Court House street.

The Committee on Zanjas reported a recommendation that all bids for cleaning Zanja Madre tunnel be rejected and the Zanjero be instructed to do the work.

The Committee on Sewers reported a pay roll of $40 for repairs.

FINANCE COMMITTEE.

The Committee on Finance reported, recommending the transfer of $365.17 from the cash fund to the street sprinkling fund. That hereafter bills for expenses in sewers and street sprinkling be paid from the cash fund until there is money in the above funds. That $1000 be transferred from the cash fund to the new water fund. That the reports of city officers had been examined and recommending that said reports be filed. On the petition of Martha Taylor, to redeem certificate of tax sale, recommending that petition be granted. So ordered.

A policy of insurance on the City Hospital was presented and accepted.

The Special Committee on building recommended that J. P. Campbell, contractor, be paid $3000 on account. So ordered.

The Finance Committee recommended that warrants be drawn to defray weekly expenses of Zanjero, Superintendents of Streets and Sewers as per reports. So ordered.

The Special Committee to which was referred matter of removal of the City Hhospital, was granted one week longer to report.

PETITIONS.

The Chief of Police petitioned for a warrant for $100 for secret service. Referred to Finance Committee.

W. H. Mace and others petitioned that the improvements on Orange street be accepted. Referred to Board of Public Works.

A petition was received from H. Nadeau asking for the sale of a certain piece of land. Referred to the Committee on Lands.

Other petitions were received and acted upon as follows:

Of W. Morrow and others that the license of the shooting gallery on Spring street, between First and Second streets, be revoked. Referred to Committee on Police.

Of O. A. Paige to fence land. Referred to Board of Public Works.

Of Frank Oakley for interpreter's fees. Referred to Finance Committee.

Of H. W. Mills and W. W. Robinson asking permission to connect with private sewer. Referred to Sewer Committee.

Of A. Rinkenback and others for a box cross-walk on Washington street. Referred to Board of Public Works.

Of O. H. Simpkins for sidewalk on Sonora street. Referred to Board of Public Works.

Of P. Neafsey for reissue of a city warrant. Referred to Finance Committee.

Of J. E. Hollenbeck for repair of a bridge on the Downey City road. Referred to Board of Public Works.

Of citizens asking for five fire hydrants on Boyle Heights. Referred to Fire and Water Committee.

Of William Riley and others for a bridge across Zanja S-R, between Ninth and Tenth streets. Referred to Board of Public Works.

Of M. Lindley, protesting against Hill street being graded between Temple and Courthouse streets. Filed.

It was ordered that the Board of Public Works examine Chavez street, with a view to opening it.

THE FIRE DEPARTMENT.

The following report was submitted: The Committee on Fire and Water respectfully request your attention to the incomplete state of the fire department, which the late fire on Boyle Heights has so practically brought before our notice. We find that a fire of average magnitude requires the working of all our present stock, and when the same takes place in the suburbs, or at any distance from town, it leaves the city defenseless. This is a very serious matter, and warrants immediate action. We recommend the purchase of two fire engines, one for East and one for West Los Angeles, and also 1000 feet more hose, our present stock being 2300 feet, which includes only 1600 first-class hose, all of which was in use at the last fire. These matters we have thoroughly investigated and earnestly recommend, being absolutely necessary. We also recommend that the petition of W. H. Griffin and others, requesting a fire hydrant at the corner of Pearl and Ninth streets, be granted. Also recommend granting the petition of S. P. Hose Company calling for fifty feet of hose to replace what was destroyed at the fire on San Fernando street, which [illegible] a just demand. We also [illegible] that the City Water Com[illegible] requested to furnish more [illegible] Boyle Heights. Adopted.

Stocks and Bonds.

By Telegraph to The Times.

NEW YORK, Feb. 10.—Governments dull, strong, for 4s and 4½ coupons. Railways generally higher. Stocks opened with little change, but after a few minutes there was a decided buoyancy, and upward movement continued with very slight interruptions until 2 o'clock, when an advance of ⅜ to 2¾ per cent was established. Leaders then withdrew a portion of their support and there was a reaction. The net result of the day's operations is an advance of ⅜ to 1¾ per cent., except in a few instances, when prices were a fraction lower. Market unusually active. "There is a demand for tea of a green color in some parts of this country and Europe. It is not a question of flavor but of color with some people."
—*New York Herald, 20th Aug.'82.*

But families desirous of preserving health should not look only at the **color** of tea, as tea may be uncolored and yet composed of inferior or exhausted leaves, but also at the **package**. Neither paper packages nor bulk chests are a proper protection for tea.

It is because

EOLA TEA

is imported only in the

Perfection Tea Can

and therefore carries with it a guarantee of **thorough preservation**, as well as **purity**, that it has attained its present popularity.

The following are some press notices:

"Delightfully aromatic and nerve-stimulating to a degree."—*Boston Advertiser.*

"Formosa and Japan may both be proud of producing so delicate a tea."
—*Journal of Commerce.*

"Marks an era in the history of tea importation."
—*N. Y. News.*

Furthermore, the quality of this tea is enhanced by the process used in drying.

"Its exporters evidently mean to demonstrate by Eola Tea what their newly patented curing machine is capable of."—*U. S. Medical Investigator.*

Of which a noted authority says:

"It shows the progress the arts are making in ministering to domestic wants."—*Scientific American.*

Then again the package in which

EOLA TEA

is imported is made the subject of favorable comment:

"The Perfection Tea Can is the only package suitable for so sensitive a tea."—
N. Y. Sunday Mercury.

"The can is without trace of lead and pays no duty."
N. Y. Christian Advocate.

The last sentence is noteworthy, as it is an undoubted fact, that even pure tens, if packed in lead (as is usual), are liable to contract dangerous properties.

Dr. Kellogg
—THE—
CELEBRATED & WORLD-RENOWNED
MAGNETIC HEALER,

From New York city, is now at the Pico House, and will remain there for a limited time, curing and healing the various complicated diseases to which the human frame is heir.

Dr. Kellogg has a world-wide reputation for his extraordinary cures of difficult and chronic cases.

He is the miracle of all mortal marvels, and one of the greatest wonders of the Nineteenth century, performing cures which equal, if not surpass, the old time miracles, causing the blind to see, the deaf to hear and the lame to walk.

CONSULTATION FREE, and one hour each day will be devoted expressly to the poor of this city, or those who are unable to procure their own medicine. They will be treated free of charge. The Doctor gives away more medicine than half the others sell. Consultations at office or by mail, free and invited. A friendly talk or opinion costs nothing. When inconvenient to visit the city for treatment, medicines sent by mail or express everywhere, securely packed, free from observation. Curable cases guaranteed; where doubt exists it is frankly stated. Hours 8 a. m. to 8 p. m. Sundays, 12 to 3.

Nervous Prostration, Debility, Mental and Physical Weakness, Mercurial and other Affections of Throat, Skin and Bones, Blood Impurities and Blood Poisoning, Skin Affections, Old Sores and Ulcers, Impediments to Marriage, Stunted Development, Rheumatism, Malaria. Especial attention to complicated, Difficult, severe and SURGICAL cases. Piles cured WITHOUT USING KNIFE.

Diseases from indiscretion, excess, exposure or indulgence, producing some of the following effects: Nervousness, Debility, Dimness of Sight, Perverted Vision, Defective Memory, Pimples on the Face, Aversion to Society of Females, Want of Pleasure in Life, Want of Ambition, Unfitness to Marry, Melancholy, Dyspepsia, Headache, Restlessness, Loss of Spirits, Pains in the Back, etc., are treated with unparalleled success, safely, privately.

Catarrh, Throat, Nose, Lung Diseases and ASTHMA. Liver Complaints.

It is self-evident that a physician paying particular attention to a class of cases attains great skill, and physicians in regular practice all over the country, knowing this, frequently recommend cases to this oldest office in America, where every known appliance is resorted to, and the proved good remedies of all ages and countries are used. A whole house is used for office purposes, and all are treated with skill in a respectful manner; and, knowing what to do, no experiments are made. On account of the great number of cases applying, the charges are kept low, often lower than is demanded by others. If you secure the skill and get a speedy and perfect life cure, that is the important matter. Leucorrhœa cured in four treatments. It is the most troublesome disease known to the female sex.

Cancer Cured without pain and speedily. No cutting done.

Tapeworm removed or no charge. Many persons suffer greatly from the effects of tapeworm who doctor for Dyspepsia, Indigestion, Nervous Prostration, Palpitation of the Heart and a Dry Cough, in consequence of the parasite irritating the throat.

THE SYMPTOMS OF TAPEWORM

Are characterized by restlessness at night, sickness of the stomach, vomiting, convulsions, epileptic fits, faintness, stupor, loss of memory, gnawing sensation in the stomach, pains in the side and back, dry cough, a voracious appetite at one time and a loathing of food at another, a choking sensation when lying down, disagreeable breath, face flushed, nose contracted, heaviness of the eyes, bad digestion, stomach bloated at times, emaciation of the body and great nervous debility and dizziness of the head. Some persons may have all the above symptoms while others only have a part of them, and some will have a tapeworm for a long time, and yet never pass any joints or pieces, which is the only positive evidence of its existence. During a residence of eight years in New York city he

Cured Over 6000 Patients,

A large portion of whom had previously been given over by ordinary practitioners as incurable. His system of treatment is peculiar to himself; by it the vital forces become equalized; no pain is caused; no poisonous medicine given, and no surgical operation performed. The most hopeless cases taken and cured after all else has failed.

CONSULTATION FREE.

Can take a tapeworm in two hours complete. Will prove to you, free of charge, as to whether you are afflicted with tapeworm or not. No charge for first lot of medicine.

Do not fail to visit Dr. Kellogg.

"The Wonder,"

After all others have failed to cure you.

The most obstinate diseases succumb to the Doctor's unlimited skill.

My diploma hangs on my office wall for inspection of patients. Patients will find the Doctor a gentleman, socially as well as professionally.

OFFICE, PICO HOUSE.

DIABOLICAL DYNAMITE.

A Scheme to Blow Up a House Across the River.

DYNAMITE CARTRIDGE UNDER THE FLOOR

A Genuine Dynamiter in Los Angeles—His Threats—The Fiendish Attempt Frustrated by the Discovery of the Cartridge.

Mr. P. Beaudry is the owner of some vineyard property on the east side of the river about a quarter of a mile from the distillery. He employed last year a Frenchman by the name of Celle to work on this property, but finding him to be incompetent and dishonest, discharged him, being compelled to sue him to gain possession of the place. He put in his stead another Frenchman by the name of Parra, who had formerly worked under Celie. The latter individual has rather a hard name in the French settlement of this city, and is currently reported to be a tough of the very worst kind. At one time he was left in charge of the grounds of the French college in the Arroyo Seco and improved the opportunity by cutting down the fruit trees for firewood, stealing the tools of the institution and doing much irreparable damage, the owner of the building being finally compelled to tear the roof off to get rid of him. As soon as he was evicted by Mr. Beaudry he went off muttering threats, and a few weeks ago said to a fellow workman that he had a dynamite cartridge in his chicken house, and if he took a notion he could blow Mr. Beaudry up anytime. Mr. Beaudry heard of the threat but paid no attention to it, until a few days ago a rather alarming circumstance was developed. Celie bore no good feeling towards his successor, Parra, and when the latter last Sunday morning discovered a large dynamite cartridge under his house, (which is owned by Mr. Beaudry), he was naturally somewhat alarmed. The cartridge was taken out and found to be labeled "Dynamite," having also the name of its manufacturer in Paris. Parra, who has worked in the quarries of his native land, recognized the cartridge to be of the most powerful kind and quite sufficient to blow up thousands of tons of rock if placed in the proper position. To the cartridge is attached a fuse, which, if lighted, would burn slowly till the chemicals which explone the dynamite are reached. Even if the fuse was not lighted, should a little hot water reach the cartridge it would immediately explode, and possibly the fiend who placed it under the house calculated that the Parras' while washing their floors, might in this manner explode the cartridge. Had an explosion occurred it is probable that all the houses in the vicinity would have been wrecked and possibly several lives lost. There is no evidence directly connecting Celle with the plot, but the circumstantial evidence is strong enough against him to warrant a close watch of his movements by the police authorities. His threat to use dynamite to exterminate his enemies has been made to several parties, and he is now under police surveillance. The dynamite cartridge remains in the barn at Mr. Beaudry's house on the East side.

Y. M. C. A.

The Close of Their Convention Last Evening.

The second session opened at 9 o'clock yesterday morning, with devotional exercises, conducted by F. E. Reeves, General Superintendent, of Pomona. A permanent organization was formed, with Dr. C. M. Brown, President; Rev. F. H. Robinson, First Vice-President; Dr. F. A. Seymour, Second Vice-President; F. J. Culver, Secretary; Oscar Taylor, Treasurer.

The report of the Association was then heard. Pomona, but one year old, reported a fine reading-room and hall, in a good financial condition, and able to support a General Secretary, with a bright outlook for the future. San Bernardino is soon to open rooms. Great interest is apparent in the Y. M. C. A. among the young men. Riverside reported by proxy. Reading-room open and well patronized. San Diego sustains a reading-room, and as all other associations is well attended at Sunday afternoon meetings. Our own association reported by the President, and showed a marvelous growth and bright prospects.

"The Relation of Church and Association" was ably set forth by Rev. G. W. White of San Gabriel, followed by a spirited discussion, with the conclusion that the association is a mighty auxiliary to the church.

The afternoon was taken up by discussing first the "Work in Small Towns," opened by Dr. C. W. Brown, who showed conclusively that in many ways the Association does as great if not greater work in small towns than in large ones. Pomona is a fair sample of what can be done in any town in Southern California. The second topic, "Distinctive Work of the Y. M. C. A.," was opened by Rev. S. J. Fleming, who stated that it was not a charity institution to go to jails, poorhouses, etc. Whilst work in these might be done properly by the Association, still it was not its specific aim. But to make Christian young men was its first and prime object. He then referred to the work being done in colleges, among railroad men, lumbermen, German young men, etc. Mr. S. J. Merrill, then spoke on the financial question giving many valuable hints as to the mode of raising money to carry on the work. All of these questions were freely discussed.

The evening programme was very interesting. Messrs. Field and While spoke enthusiastically on the out-look of the Y. M. C. A. work in this part of the State.

Other conventions will be held from time to time. This, the first one, was counted a grand success.

AMUSEMENTS.

THE HEINE RECITAL.—The third recital of the series which the Heine Quartette are giving, attracted a large audience at Opera Hall, last evening. The programme, which embraced selections from Mozart, Mendelssohn, Grieg and Feses, was rendered with the same admirable grace and power that have characterized the music of the previous recitals.

Probably Fatal Accident at Alpine.

A few days ago a young man named Arbuckle, whose parents reside in this city, but who himself owns a ranch at Alpine, in the northern portion of this county, met with an accident which will probably cost him his life. He went out shooting and accidentally dropped a revolver, which was discharged and a bullet half an inch in diameter entered the calf of his leg. He was alone at the time and had to crawl several miles before he reached assistance. When he finally was conveyed to Alpine he lay over night without medical aid, and the next day was brought to this city. Dr. Lindley, who is attending him, states that blood poisoning has ensued, owing to the delay, and the chance for life is slight. The young man is only eighteen years old.

A Donation for Frank Bartlett Post, G. A. R.

The Evergreen Cemetery Association has presented to Frank Bartlett Post, G. A. R., twenty-four lots in their cemetery worth about $2000. The donation is made with the provision that the Post erect a monument in the plot, within two years to cost $1000. The gift has been accepted. There is a rumor that the Rosedale Cemetery Company contemplates a similar donation to Stanton Post.

Musicale Last Evening.

Another of those delightful musicales which have been so much enjoyed this winter was given last evening by the Los Angeles Conservatory of Music, 405 South Main street. About fifty persons were present and the programme comprising instrumental and vocal music was thoroughly appreciated. The progress made by the pupils of the class has been most gratifying, and the interest taken in these musical entertainments is each month increasing.

New Residence on the Hill.

Contractor Townsend is engaged in grading the lot belonging to W. D. Gould at the corner of Bunker Hill avenue and Temple street. It is Mr. Gould's intention to build a stone wall fronting on the street and erect a residence costing $6000.

THE SAN PEDRO PROBLEM.

The Lay of the Land as Respects Wharf Franchises.

The interests involved in the question of granting a wharf franchise at San Pedro to W. G. Kerckhoff, the petitioner before the Board of Supervisors, are numerous and important, and the situation should be understood by the public. It is of vital interest to this county that nothing may block any projected railroad line from an outlet to the coast; and it has been assiduously alleged that the granting of the Kerckhoff franchise would do this.

The present occupation of the San Pedro water front is as follows: Beginning at the north, at the creek, the Pacific Coast Steamship Company has a franchise of 1200 feet. Next south of this comes an unoccupied water front of 723 feet; next is the 600-foot stretch of the Perry, Woodworth Mill Co., and last, and ending the available water front, the 3000 feet of the Southern Pacific Railroad Company. It is in the open stretch of 723 feet that Kerckhoff asks a franchise of 300 feet. The only interference involved would be with a wharf erected there by J. F. Janes, and this Janes offers to relinquish if 100 the feet of 723 be perpetually kept open for a boat landing.

There is a truly sad solicitude in certain quarters, lest the granting of this franchise to Mr. Kerckhoff shut out the Atlantic and Pacific railroad from a water-front. The imposing logic of this outcry becomes evident when it is remembered that to reach the open space above mentioned, a competing railroad would have to pass over the property of the Steamship Company and of the Southern Pacific. The mercury would be trying to gnaw its way out at the bottom of the bulb, any day, when these two corporations open the gates to a rival. The only possible opening for the Atlantic and Pacific, or any other new road to the coast there, is to cross to Rattlesnake Island, which has 7,000 feet of water-front and no franchises.

The town and harbor of San Pedro have been and are practically in the pantaloons pocket of a little and a big monopoly—General Banning and the Southern Pacific railroad. The relationship of these two parties has been of mutual admiration for revenue only. The General and the railroad have held things down pretty successfully, to the great detriment of the place, and did not propose to be bothered by interlopers. Mr. Kerckhoff opened up a lumber business there, and it was desired to freeze out the intruder.

Mr. Kerckhoff read to the Board of Supervisors, yesterday, letters from lumber firms in the northern part of the State, saying they had been notified by General Banning that if they shipped lumber to the Kerckhoff, Cuzner Lumber Company, the vessels would have to pay fees far in excess of those charged other vessels; and informing that firm that if it wished lumber from them it must give bond to pay these excessive charges. The firm had also been obliged to pay unusual and exorbitant rates upon lumber hauled by rail. Mr. Kerckhoff stated to the Board that unless granted the franchise his firm would be unable to continue business, as, thanks to Banning, it was obliged to pay higher freights than any other merchants in San Pedro.

Two petitions opposing the grant of the Kerckhoff franchise were read before the Board of Supervisors yesterday. One was signed by about sixty merchants of this city; the other by about forty San Pedro and Wilmington citizens, most of whom are alleged to be employed or controlled by either the Southern Pacific Railroad or General Banning. A petition in favor of granting the franchise, signed by some fifty citizens of Wilmington and San Pedro, was also read.

Gives Them a Chill.

The Joliet, Ill., Republic and Sun gets away from the red-hot office stove long enough to say: "We are in receipt of a copy of the New Year's edition of the Los Angeles DAILY TIMES, a ten-page edition, giving a most interesting review of the progress and attractions of the city and county. We feel deeply interested in looking over this review from the fact that Los Angeles city and county have become the home of so many who were once citizens of our county. We now make up a considerable package of the Republic and Sun for the city of Los Angeles. We must confess that with the thermometer at 20 or more below zero, it gives us an additional chill to read of "orange orchards, filled with blossoms and ripening fruit," of "grapes still hanging luscious on the vines," of the "land green with its baptism of winter rains," of "flowers, both wild and cultivated, filling all the air with fragrance, and the eye with beauty." Los Angeles has grown in the last few years from a sleepy old Mexican town to a thriving city of over 30,000.

The Republic and Sun republishes from the New Year's TIMES the fine poem contributed to it by Albert F. Kercheval.

California Cocoonists.

The Ladies' Silk Culture Society in its monthly meeting at Druids' Hall, San Francisco, last Tuesday, elected Mrs. Richard Gird of San Bernardino, Mrs. Ella Cummings, Mrs. Charles Crocker, Mrs. Leland Stanford and Mrs. George Tourney to membership, and chose as delegates to New Orleans Mrs. Laura de Force Gordon, Mrs. J. C. Leemon and C. B. Turrill. The Executive Committee suggested that object lessons in silk culture should be introduced into the public schools, as is done in France. The following articles, all produced in this State, have been sent by the Society to the Woman's Department at the New Orleans Exposition:

Twenty-four bottles cocoons, representing as many counties of the State; eighteen boxes of sewing silk of different shades, a silk banner made from the first silk raised in the State, several pairs of black silk stockings and skeins of silk.
